

TeenZone

Q: As a working professional, leaving work @ 5:00 pm, it makes no sense that the teen zone closes @ 6:00pm. What happens with working single parents?

A: Based on previous year's gate counts and times, we came to these new hours for the TeenZone. While I understand it will never fit everyone, we hope to impact most this way. The good thing is that age 10 and up can be in the facility without a parent with them so they can use: gym, pool, STRIVE equipment. We will also look at our gate counts each year to determine best hours.
